NEW ITM AUDITING IS ONLINE!

ONLINE AUDITING

Financial institutions face a variety of challenges including increased regulatory requirements, added pressure to reduce costs, and finding ways to improve operational efficiency — all while increasing client acquisition and retention.

Euronet's online auditing enables:

- Instant availability on your Euronet User Interface (EUI)
- Both daily and forensic digital information is immediately available online
- Creates, updates, and deletes are all available for instant viewing
- Before and after images are available where applicable
- Client, debit, credit, prepaid, and merchant are easily acceptable
- Ability to sign off as "audited"
- Paper is optional
